

SAN DIEGO ENGINEERING GEEK NIGHT ON BOARD THE USS MIDWAY MUSEUM

SUNDAY September 25, 2016 6 PM – 9 PM

Supporting K-12 STEM* ACTIVITIES IN THE SAN DIEGO REGION

Hosted by the San Diego Chapter of INCOSE, ASQ the American Society for Quality and the INCOSE Foundation

Event open to ALL interested in supporting STEM activities for our schools!

Ticket includes:

- USS Midway Museum admission
- Free docent tours
- Free full-motion flight simulators
- Local school robotics demo
- Free dinner by Wild Thyme Catering
- 50-50 raffle to support STEM
- Networking with engineering colleagues
- Flight Deck view of San Diego Harbor

Ticket prices:

Adults	\$30	Family package*	\$100
6 – 17 years of age	\$20	5 years of age and under free	

* 2 adults and up to 4 people ages 6-17

Tickets will be sold at the door, depending upon available space.

Even if you are unable to attend, you can support this worthy cause by making a donation to the INCOSE Foundation by clicking on "San Diego STEM Teacher Grants" at <http://www.incose.org/about/Foundation/FoundationDonate> Rest assured that 100% of donations to the INCOSE Foundation will go toward grants to local San Diego STEM teachers.

Contributions through the INCOSE Foundation are tax deductible to the extent allowed by law.

*STEM: Science, Technology, Engineering, and Mathematics

INCOSE San Diego Chapter hosts Fifth Annual Engineering Night on-board the USS Midway Museum to raise awareness of STEM needs in our local schools.

San Diego (June 2016) - The San Diego Chapter of the International Council on Systems Engineering (INCOSE), the San Diego Section of the American Society for Quality (ASQ) and the INCOSE Foundation, are proud to announce we are hosting the fifth annual San Diego Engineering Night on September 25, 2016, at the USS Midway Museum in Downtown San Diego. The San Diego Engineering Geek Night on the USS Midway Museum is a local industry and academic event dedicated to raising Science, Technology, Engineering, and Mathematics (STEM) awareness and support for local K-12 schools in the San Diego region.

An increasing complexity of today's systems along with a current and projected long-term shortage of qualified workers inspires INCOSE to encourage future generations to pursue engineering and science careers. These fields include aerospace, defense, telecommunications, energy, water and waste management, transportation, homeland and cyber security, and health care.

INCOSE's goal is to specifically help science, technology, engineering, and mathematics programs that have funding shortfalls in local schools. The programs, better known as STEM, are designed to interest and excite students about careers in technical and scientific fields such as systems engineering.

San Diego Engineering Night begins at 6 p.m. Attendees will enjoy admission to the USS Midway Museum, a guided tour, flight simulator rides, a spaghetti buffet, a student robotics demonstration, networking with engineering colleagues and a fantastic flight deck view of San Diego Harbor. Ticket prices for this event are \$30 for adults, \$20 for those 6-17 years of age, and children 5 years of age and under free. In addition, a family package is available for \$100 which includes admission for 2 adults and up to 4 people between 17 and 6 years of age. Tickets can be purchased online at <http://sdincose.org/5th-midway-event> and sponsorships are still available.

For more information about INCOSE's San Diego Chapter, the San Diego Engineering Night, or other local INCOSE events, please visit: www.sdincose.org.

###

About INCOSE and ASQ:

INCOSE, a not-for-profit membership organization, was founded to develop and disseminate the interdisciplinary principles and practices that enable the realization of successful systems. The world's authority on systems engineering, INCOSE promotes international collaboration in systems engineering practice, education, and research.

ASQ. Our Mission is to facilitate continuous improvement and increased customer satisfaction by identifying, communicating, promoting the use of quality principles, concepts, technology; and thereby be recognized throughout the world as the leading authority on and champion for quality. For more information visit: <http://asqsandiego.ipage.com/>.
