

June 11, 2013,

Jo Ann Lane
STEOM Fundraiser Coordinator and Past President
San Diego Chapter of INCOSE

Dear Ms. Lane,

Thank you to you and your committee for supporting our school, Albert Einstein Academy Charter School with an INCOSE Foundation grant for \$880. We purchased the Bodelin Proscope Microscope and a refurbished ipad. We are integrating the proscope into our 3rd grade garden program and the science enrichment program. The 1st graders even got to look at lady bugs and aphids while they released the lady bugs into the garden. We are thrilled to have this wonderful piece of equipment.

Here are some pictures taken in the garden.

Sincerely,

Michelle Guarino, 3rd grade teacher
Terri Oelrich, Garden Coordinator
Amy Hooker, Garden Educator
